

K-Love music station FM 88.5 is a service to me as I commute to work. The station has music, is upbeat, creative, inspiring, and also relates state and national news update in concise fashion. It is patriotic to the US. It is encouraging and positive in community to the listening public from young children to adults. I am not able to get this type of caring and encouragement from another station. This station is a priority and must be allowed to remain on the air. I am a tax payer and third generation working Californian. I need K-Love as I commute 45 minutes to work.
